

ZONING CHANGE REVIEW SHEET

CASE: C14-2007-0220 – Bouldin Creek
Vertical Mixed Use (VMU) Rezoning

P.C. DATE: November 13, 2007

AREA: 50 tracts on 75.95 acres

APPLICANT: City of Austin, Neighborhood Planning and Zoning Department (NPZD)

AGENT: City of Austin, Neighborhood Planning and Zoning Department (NPZD),
Melissa Laursen

NEIGHBORHOOD ORGANIZATIONS:

Austin Independent School District
Austin Neighborhoods Council
Barton Springs/Edwards Aquifer Conservation District
Bouldin Creek Neighborhood Association
Bouldin Creek Neighborhood Planning Team (Staff Liaison)
Bouldin Forward Thinking
CIM
Dawson Neighborhood Association
Dawson Neighborhood Planning Team
Dawson Neighborhood Planning Team (Staff Liaison)
Downtown Austin Alliance
Galindo Elementary Neighborhood Association
Home Builders Association of Greater Austin
Homeless Neighborhood Organization
Meadowbrook Neighborhood Association
Save Town Lake Organization
Sentral Plus East Austin Coalition (SPEAK)
SoCo-South First St.
South Bank Alliance
South Central Coalition
South Congress South First
South Lamar Combined Planning Area (Staff Liaison)
South River City Citizens Association
Terrell Lane Interceptor Association
Zilker Neighborhood Association

AREA OF PROPOSED ZONING CHANGES: The Bouldin Creek Neighborhood Planning Area is bounded by South Congress Avenue to the east, Ben White Boulevard to the south, the Union Pacific Railroad tracks to the west, and Lady Bird Lake (formally Town Lake) on the north. Please refer to Attachments.

WATERSHEDS: West Bouldin Creek– Urban; East Bouldin Creek- Urban;

Town Lake- Urban

DESIRED DEVELOPMENT ZONE: Yes

SCHOOLS: Becker Elementary School; Texas School for the Deaf

APPLICABLE CORE TRANSIT CORRIDORS: West Riverside Drive; South 1st Street; South Congress Avenue; Barton Springs Road

SUMMARY STAFF RECOMMENDATION:

Staff supports the neighborhood recommendations regarding dimensional standards, parking reduction and additional uses in office zoning districts as detailed in the Bouldin Creek VMU Neighborhood Recommendation (Attachment 3). Staff is also recommending postponing Tract 129 until the December 11, 2007 Planning Commission Hearing and the January 10, 2007 City Council Hearing to allow for the plan amendment to occur concurrently with the rezoning.

STAFF RECOMMENDATION

Staff supports the neighborhood recommendations regarding dimensional standards, parking reduction and additional uses in office zoning districts as detailed in the Bouldin Creek VMU Neighborhood Recommendation (Attachment 3). Staff is also recommending postponing Tract 129 until December 11, 2007 to allow for the plan amendment to occur concurrently with the rezoning.

The neighborhood recommendation to apply VMU related standards to the core transit corridors is consistent with the Bouldin Creek Future Land Use Map to allow for this type of development on the major arterials and protect the residential interior of the neighborhood.

BACKGROUND

On August 31, 2006, the City Council adopted the "Design Standards & Mixed Use" ordinance as Subchapter E of Chapter 25-2 of the City Code. Most of the provisions of the ordinance went into effect on January 13, 2007. However, a separate process and schedule was established within the ordinance for Vertical Mixed Use.

The VMU Opt-In/Opt-Out process provides an opportunity for neighborhoods to offer recommendations regarding the location and development standards for Vertical Mixed Use Buildings. The primary focus of this process is on property fronting certain major arterials defined as Core Transit Corridors; however, other properties may also be eligible for VMU. With some exceptions, properties fronting on a Core Transit Corridor are eligible for VMU unless "opted-out". Properties not fronting on the Core Transit Corridors are not eligible for VMU unless "opted-in".

As part of the Vertical Mixed Use (VMU) Opt-In/Opt-Out process the city of Austin was divided into approximately 80 neighborhood planning and/or VMU application areas. Over the next several months each of the application areas affected by the VMU process will be the subject of a zoning case. The Planning Commission will review these cases and provide recommendations to the City Council who will make the final determination as to the applicability of VMU. Zoning case C14-2007-0216 is the final step in the Vertical Mixed Use Opt-In/Opt-Out process for the South Manchaca application area. A more detailed overview of Vertical Mixed Use and the Opt-In/Opt-Out process is provided in Attachment 6.

Representatives of the Bouldin Creek Neighborhood Planning Team (BCNPT) met on five occasions between March 21, 2007 and May 14, 2007 and submitted a Vertical Mixed Use (VMU) Opt-In / Opt-Out Application to the City on May 31, 2007. Please refer to Attachment A.

- The BCNPT recommended applying all VMU related standards to all eligible properties within the VMU Overlay District. This includes commercially zoned properties (excluding properties that are residentially used) and commercially zoned properties with the mixed use combining district.

- The recommendation from the BCNPT is consistent with the Bouldin Creek Neighborhood Plan which places mixed use developments on the major arterials (South 1st Street, South Congress Avenue, Barton Springs Road, and W. Riverside Drive) and protects the residential interior of the neighborhood.
- The recommended level of affordability for future VMU Rental Units is 60% of the median family income.

Impervious Cover

The maximum impervious cover limits for the proposed zoning districts are as follows:

LI, Limited Industrial Services	80 %
CS, Commercial Services	95 %
CS-1, Commercial – Liquor Sales	95 %
W/LO, Warehouse Limited Office	70%
GR, Community Commercial	90 %
LR, Neighborhood Commercial	80 %
LO, Limited Office	70 %
MH, Mobile Home	N / A
MF-4, Multifamily Residence Moderate – High Density	70%
MF-3, Multi-family Residence (Medium Density)	65 %
MF-2, Multi-family Residence (Low Density)	60 %
SF-6, Townhouse & Condominium Residence	55%
SF-5, Urban Family Residence	55%
SF-3, Family Residence	45 %
SF-2, Single Family Residence – Standard Lot	45 %
P, Public	varies (refer to the <u>Land Development Code</u>)

The maximum amount of impervious cover is determined as the more restrictive figure of the zoning district and watershed class.

Transportation

Additional right-of-way (ROW) necessary for future roadway improvements within the proposed zoning may be required during the subdivision review process or the site plan review process.

Since the rezoning of this area is being initiated by the City of Austin through the neighborhood planning process and does not reflect a specific development proposal, no trip generation calculations are provided on a tract-by-tract basis for any proposed land uses as would typically be provided.

A Traffic Impact Analysis (TIA) will be required during the site plan review stage for any proposed land use that would generate over 2,000 vehicle trips per day. Additional ROW, participation in roadway improvements, and/or limitation on development intensity may also be recommended based on review of the TIA.

Water and Wastewater

The area is served with City of Austin water and wastewater utilities. If water or wastewater utility improvements, or offsite main extension, or system upgrades, or utility relocation, or adjustment are required, the landowner, at own expense, will be responsible for providing. Also, the water and wastewater utility plan must be reviewed and approved by the Austin Water Utility. The plan must be in accordance with the City design criteria. The utility construction must be inspected by the City. The landowner must pay the associated City fees.

Compatibility Standards

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540-feet or less from property in an SF-5 or more restrictive zoning district/use will be subject to compatibility development regulations.

VERTICAL MIXED USE (VMU) OPT-IN/OPT-OUT APPLICATION

The purpose of this application is to provide recommendations on the location and standards for Vertical Mixed Use within the below named area.

Detailed instructions for completing this application can be found by clicking on this link: ftp://coageoid01.ci.austin.tx.us/GIS-Data/planning/CommercialDesign/vmu_instructions.pdf. Please read these instructions prior to completing this application. A "Submittal Checklist" is provided at the end of this document to help ensure that all application materials are included in the neighborhood submittal.

If you have questions or need additional information please contact the VMU Help Line at:

vmu@ci.austin.tx.us

or (512) 974-2150

1. IDENTIFY YOUR NEIGHBORHOOD PLANNING OR APPLICATION AREA AND PROVIDE THE FOLLOWING INFORMATION:

A. NAME OF NEIGHBORHOOD PLANNING AREA OR VMU APPLICATION AREA*:

BOULDIN CREEK

*Note: A map of the Neighborhood Planning and VMU application areas can be found by clicking on this link: <ftp://coageoid01.ci.austin.tx.us/GIS-Data/planning/maps/CommercialDesign/VerticalMixedUseColorMap.pdf>. This map also shows properties within the VMU Overlay District and properties with the MU Combining District that are included in the opt-in/opt-out process.

B. NAME OF NEIGHBORHOOD PLANNING TEAM CHAIR OR NEIGHBORHOOD ASSOCIATION CHAIR AND SECONDARY CONTACT.

NEIGHBORHOOD PLANNING TEAM OR NEIGHBORHOOD ASSOCIATION CHAIR CONTACT INFORMATION:

The Bouldin Creek Neighborhood Planning Team (BCNPT) and the VMU Process

5/25/07

Executive Summary

Background

The Bouldin Creek Neighborhood Planning Team (BCNPT) met on five occasions between March 21, 2007 and May 14th 2007. (See attached minutes).

The meetings were hosted by local business owner Melissa Gonzales at the Morning Star Trading Company, 1919 S. First St., Austin, TX 78704.

A total of 47 people (representing business owners, residents, and tenants) participated in the meetings.

The BCNPT made the following recommendations

- 1) Consistent with the broad outlines of the Bouldin Creek Neighborhood Plan, which calls for development on the arterials and the protection of the neighborhood interior from denser development
 - a) the BCNPT accepted to the VMU Overlay for properties with frontage on the major arterials of S. Congress Ave., S. First St., and Barton Springs Road.
 - b) the BCNPT rejected opting in as VMU any MU property in the interior of the neighborhood or any other MU property that does not have a frontage on the arterials
- 2) The BCNPT called for the most vigorous level of affordability (60% of MFI) to be applied to all VMU developments on the arterials.
- 3) The BCNPT identified and corrected a few plot errors on the current maps provided by the City.

Conclusion

While due diligence was applied to the VMU Opt-in/Opt-out framework, the BCNPT found the whole process to be problematic and impractical, if not unworkable. Apart from the short 90-day window, the lack of City staff support (such as facilitation, public notification of meetings, and legal advice -- all

available in the Neighborhood Planning process) left contentious issues (such as parking concerns, individual property rights versus the Neighborhood plan) to be tackled by the voluntary facilitators and participants with limited time and only the broadest of informational guidelines.

While the face-to-face dialog between interested parties was civil and informative, the decisions that were made (see above and attached minutes) were, by the constraints mentioned earlier, quite limited.

Stuart Hampton.
BCNPT Chair, on behalf of the BCNPT Executive Committee

Personal comments by the Chair

A flawed process, without question.

If the City was serious about whole neighborhood input in the process it would have done the following;

- 1) Set up and host a series of discussions with individual neighborhood planning teams (not just neighborhood reps) on VMU -- before the decision was taken to apply the VMU overlay to all arterials.
- 2) Publicly notify all affected persons (i.e. the whole neighborhood) of meetings about the VMU.
- 3) Be present as mediators and resource personnel.

The fact is, the decision to apply the VMU overlay had already been made by the City and the vehicle for changing that decision by the piecemeal de-selection of lots over a few weeks, with no City support (notification, mediation) gave credence to those who believe that the process was at best a fig leaf to cover the already decided upon Smart Growth/Densification initiative with a wash of "neighborhood" participation. At worst it was impractical, divisive, legally unsound, and counter to the spirit of the original NP process -- which took the time to create consensus about broadly applied (not piecemeal) and rational (constituent and equitable) zoning. (In Bouldin Creek's case -- MU overlay on all the arterials, SF zoning in the interior).

(1) The tract number refers to the numbered tracts on the Vertical Mixed Use (VMU) Tract Map

(2) Each TCAD Property ID number represents a separate property, as recorded by the Travis Central Appraisal District.

(3) The COA Addresses listed for each property are those addresses on file with the city pertaining to that property. If a COA address was not available for a property the TCAD address and/or legal description was used.

Bouldin Creek

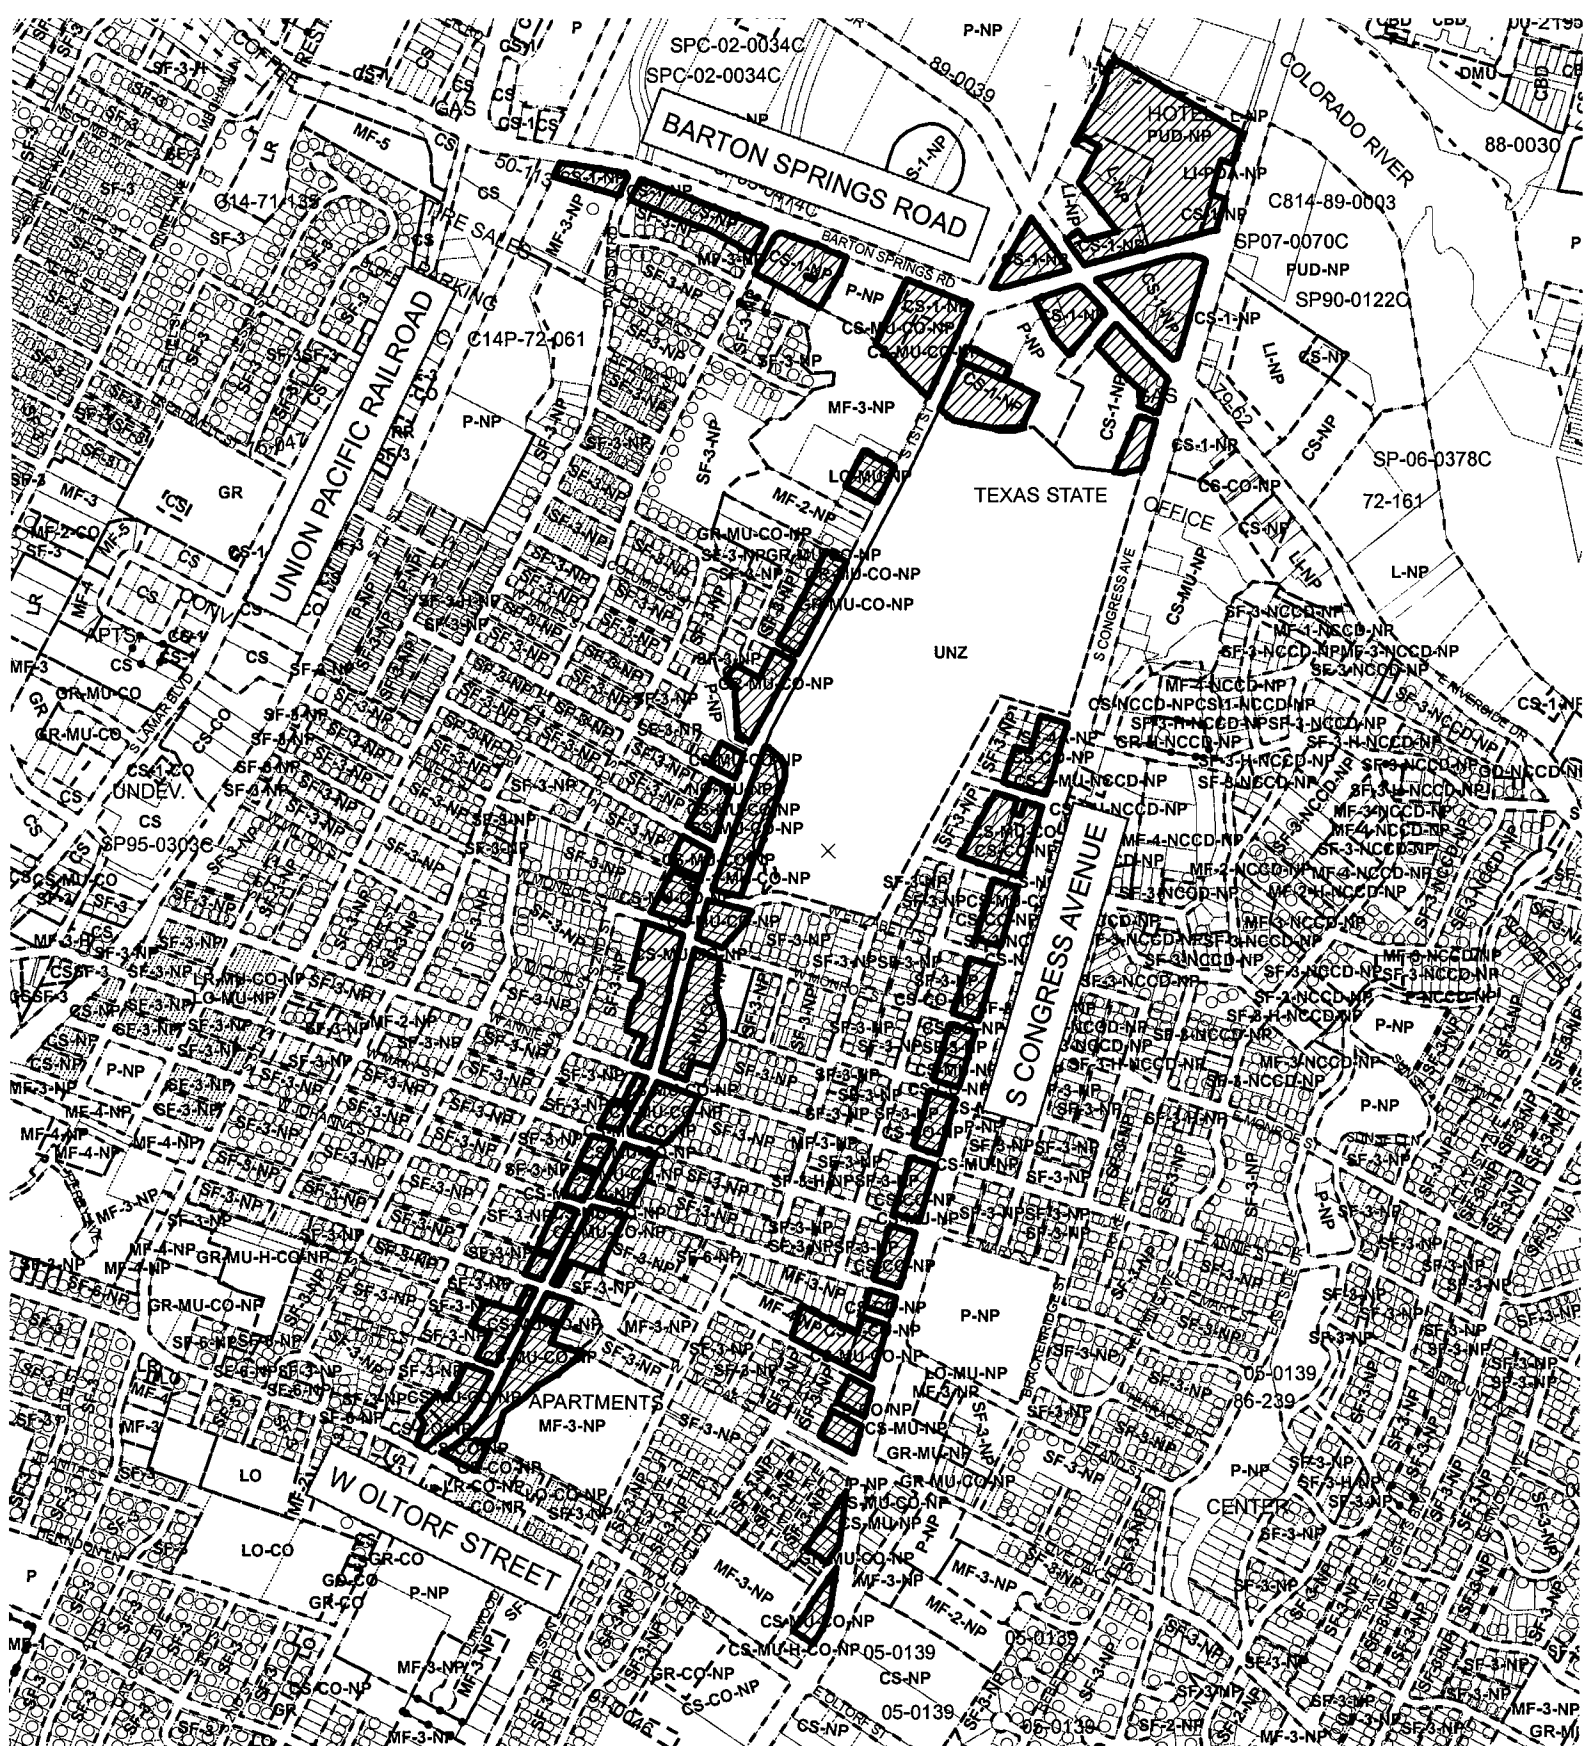

Note: Refer to attached tables "Bouldin Creek VMU Application Properties" and "Bouldin Creek VMU Neighborhood Recommendations" for more information

The map displays the Bouldin Creek neighborhood, bounded by Thornton Rd to the west, W. Cesar Chavez St. to the north, and E. Live Oak St. to the south. The neighborhood is characterized by a grid of streets and numerous properties, many of which are shaded in black. The properties are numbered 100 through 150, indicating the specific locations for the VMU application. The map also shows surrounding streets such as W. Cesar Chavez St., W. Riverside Dr., S. 1st St., S. 2nd St., S. 3rd St., S. 4th St., S. 5th St., S. 6th St., S. 7th St., S. 8th St., S. 9th St., S. 10th St., S. 11th St., S. 12th St., S. 13th St., S. 14th St., S. 15th St., OVERVIEW OF VERTICAL MIXED USE (VMU) AND THE VMU OPT-IN/OPT-OUT PROCESS

On August 31st, 2006, the Austin City Council approved a major amendment to the city's development code—the Design Standards and Mixed Use Subchapter, also referred to as the Commercial Design Standards. The majority of the Design Standards provisions went into effect in January 2007. However, a separate process and schedule was established within the ordinance for Vertical Mixed Use (VMU) Buildings. The Design Standards ordinance:

- Defined a new Vertical Mixed Use (VMU) building type and specific development standards for VMU buildings
- Established a process whereby neighborhoods can provide recommendations on the standards and location for VMU buildings (the Opt-In/Opt-Out Process)
- Established locations where VMU buildings may be built
- Defined development standards that may be relaxed to encourage construction of VMU buildings.

WHAT IS A VERTICAL MIXED USE BUILDING?

A Vertical Mixed Use building contains a mix of uses; is designed with pedestrian-oriented spaces on the ground floor; is allowed exemptions from certain site development standards that would otherwise apply; and must contain residential dwelling units—some of which must be offered at certain affordability levels.

NEIGHBORHOOD OPT-IN/OPT-OUT PROCESS

The Opt-In/Opt-Out process provides neighborhood groups the opportunity to make recommendations about potential VMU buildings in their neighborhoods to the Planning Commission and City Council. These recommendations include the location of VMU buildings, the availability of relaxed development standards, and affordable housing levels for VMU buildings. The final decision whether to accept, modify, or reject neighborhood requests rests with the City Council. *See the reverse side of this page for development standards and housing affordability level information.*

“Opt-Out”—Most properties within the VMU Overlay District are eligible for the relaxed development standards/ affordable housing package unless they are “opted-out.” A property is “opted-out” of the VMU Overlay District if a neighborhood recommends and the City Council votes to remove some or all of the relaxed development standards or changes the housing affordability level. The opt-out process also allows neighborhoods to recommend certain properties be entirely removed from the VMU Overlay District. *More information on the VMU Overlay District is provided below.*

“Opt-In”—Properties outside the VMU Overlay District neighborhoods may “opt in” properties with the MU Combining District (e.g. GR-MU) to encourage VMU buildings. Opt-In means a neighborhood recommends whether a property should be eligible for VMU and whether the relaxed development standards/affordable housing should apply. An opt-in recommendation is subject to City Council approval.

POTENTIAL LOCATIONS OF VMU BUILDINGS

The Design Standards ordinance defines two principal locations where VMU Buildings may be permitted:

- The VMU Overlay District
- On properties with the Mixed Use (MU) Combining District—an example would be a property with the zoning of GR-MU (for more zoning information go to http://www.ci.austin.tx.us/zoning/downloads/np_guide.pdf).

The VMU Overlay District, created as part of the Design Standards ordinance, applies to most commercially zoned properties with frontage on a Core Transit Corridor or Future Core Transit Corridor. These Corridors are roadways that have or could have the population density and mix of uses to encourage and support transit use. Core Transit Corridors include many of the major arterial roadways in Austin's urban core such

as South Congress Avenue, Lamar Boulevard, and Riverside Drive. For a complete list of these corridors see *Article 5, Definitions* of the Design Standards ordinance at <http://www.ci.austin.tx.us/planning/designstandards.htm>.

RELAXED DEVELOPMENT STANDARDS FOR VMU BUILDINGS

The opt-in/opt-out process allows neighborhoods to recommend relaxation of certain development standards for VMU buildings: dimensional standards, off-street parking requirements for commercial uses, and additional ground floor commercial uses in office zoning districts.

Dimensional Standards

The Design Standards ordinance uses the term “Dimensional Standards” to refer to the relaxation of specific site development standards for VMU buildings. Relaxing these standards is a way to encourage the construction of VMU buildings while still meeting building height limits and compatibility standards. If approved through the opt-in/opt-out process the following relaxed standards will apply to VMU Buildings.

Note: These Dimensional Standards are a “package” and must be accepted or rejected as such in the opt-in/opt-out process.

Setbacks—No minimum front, street side or interior side yard setbacks;

Floor to Area Ratio—No floor to area ratio (FAR) limit;

Building Coverage—No building coverage limit;

Minimum Site Area—No “minimum site area” requirement (site area requirements limit the number of dwelling units on a site)

Off-Street Parking Requirements for Commercial Uses

Minimum off-street parking for the commercial uses within a VMU building can be reduced to 60% of the normal Land Development Code requirement. Residential uses within a VMU building receive the parking reduction by right and cannot be changed through this process. The parking reduction cannot be used in addition to any other parking reduction allowances such as the one for properties within the Urban Core.

Additional Ground Floor Uses in Office Base District Zoning

If approved through the opt-in/opt-out process consumer convenience services, food sales, general retail sales (convenience or general) and restaurant (limited or general) without drive-in service will be permitted in a VMU Building located in an office zoning district (**NO, LO, GO**). Zoning use information begins on page 45 of the following document: http://www.ci.austin.tx.us/zoning/downloads/np_guide.pdf.

AFFORDABILITY REQUIREMENTS FOR VMU BUILDINGS

If VMU Buildings are approved through the opt-in/opt-out process, and if they take advantage of the dimensional and parking exemptions, they are subject to certain affordability requirements.

Owner-Occupied Units—Five percent of residential units shall be affordable for households earning no more than 80 percent of the Median Family Income (MFI). Five percent of the residential units shall be affordable for households earning no more than 100 percent of the MFI. The affordability period is 99 years.

Rental Units—Ten percent of the residential units shall be affordable for households earning no more than 80 percent of the current MFI. As part of the opt-in/opt-out process, a neighborhood association or neighborhood planning team may request that the affordable rental units be available for renters earning a lower percentage of the median family income, to as low as 60 percent of the median family income. The affordability period is 40 years.

For more information on VMU:

Re: File # C14-2007-0220
Re-definitions of VMU Design Standards

Interested Parties:

Regarding development of properties along South First Street, and, relaxation of Dimensional Standards and Parking Requirements for Commercial Uses, I make the following comments.

- Given that we will eventually need to widen South First Street, It does not make sense to have no street-side setbacks requirements.
- Given that commercial properties along South First Street abut residential areas, it seems reasonable to hold commercial development to the same setback and height requirements of residential development along those boundaries.
- Given that, with increasing frequency, commercial parking overflow chokes neighborhood cross streets along South Congress and South First, we would serve those neighborhoods best by requiring commercial establishments to provide adequate parking for their customers, and would serve adjacent neighborhoods poorly by relaxing minimum off-street parking requirements.

Respectfully,

John Christensen

November 6, 2007

Neighborhood Planning and Zoning Department
P.O. Box 1088
C/O Melissa Larson
Austin, TX 78767-8835

Dear Ms. Larson:

I am writing to express my and my partner's, Scott F. Creamer, support for the proposed vertical mixed use zoning application for the Bouldin Creek Neighborhood currently being reviewed by the Austin Neighborhood Planning and Zoning Department. I lived in South Austin fifteen years ago and traveled through the Bouldin Creek Neighborhood on a daily basis. At the time there were many run down and ill maintained properties. I left Austin and returned with my partner in 2002, at which time we purchased our current residence at 419 West Johanna Street.

There has been a considerable amount of change in the last five years and almost all of it has been for the better. While there is more traffic to contend with, it hardly outweighs the benefits of a lower crime rate, increased services, dining and shopping opportunities for the neighborhood residents. However, even with the improvements our neighborhood has seen, there still exist several properties through out the neighborhood, along South 1st Street and South Congress that remain run down and/or non productive because the current zoning makes it cost prohibitive for the owner to develop and/or sell the property. These underdeveloped properties are a major obstacle keeping the Bouldin Creek neighborhood from being one of the City's shining stars.

In my opinion, the Bouldin Creek Neighborhood Association, of which I was formerly a member, represents the view of only a minority of the neighborhood's residents. My experience with the Association leads me to believe the officers have as their primary interest fighting growth in all forms. My partner and I welcome and encourage Austin's larger initiative to increase the residential density in central Austin, which will require revising current zoning in all the neighborhoods adjacent to downtown. My partner and I encourage the Neighborhood Planning and Zoning Department to recognize the importance of increasing the density in the Bouldin Creek neighborhood as vital to the smart growth of central Austin.

Sincerely,

Timothy M. Lee

Subject: File C14-2007-0220 and File C14-2007-0224

Hello-

I am writing you in regards to the following cases/ zoning changes File C14-2007-0220 and File C14-2007-0224. I live at 1709 Eva Street and my property is effected by these changes. I am not in favor of these changes. I did not send in the Planning Commission form. Does this email count as a vote or do I need to show up to the meeting tonight?

Thanks,

From: Jenny Huth [REDACTED]
Sent: Tuesday, November 13, 2007 1:48 PM
To: Laursen, Melissa; melissa.lauresen@ci.austin.tx.us
Subject: VMU hearing tonight

Hello Melissa,

My name is Jennifer Huth, and I called you last week re: the Bouldin Creek VMU zoning application (file #: C14-2007-0220). I was planning on attending the hearing tonight, but I am unfortunately unable to attend.

You said that I could email you with any concerns if I wasn't able to attend, so I will pass this on:

I would like to go on record as saying that I am opposed to the VMU zoning for Tract #101 in the Bouldin Creek zone as I believe it has the potential to create a substantial negative impact on the homes which border this tract. I live at 1000 Daniel Dr. and my property abutts Tract #101 in the Bouldin Creek VMU zone. Tract 101 is a relatively narrow slice of property that already comes very close to our property (we overlook the roof of Vinnie's Italian Cafe). Under the VMU zoning, it appears that a larger building could possibly be built on this property, negatively impacting our property, which we purchased before VMU zoning was even being discussed. The revised setbacks would allow for a buliding that I fear will loom over our back yard and decrease the value of our home significantly.

Thanks for taking the time to answer my questions the other day, and thanks for bringing this concern into account during the hearing tonight.

Jennifer Huth

INFORMATION ON PUBLIC HEARINGS

THE NEIGHBORHOOD PLANNING AND ZONING DEPARTMENT HAS FILED AN APPLICATION TO IMPLEMENT THE VERTICAL MIXED-USE (VMU) LAND USE REGULATIONS. THIS NOTICE HAS BEEN MAILED TO YOU BECAUSE YOU OWN PROPERTY WITHIN 300 FEET OF A VMU ELIGIBLE PROPERTY OR YOU ARE A CONTACT PERSON FOR A NEIGHBORHOOD ORGANIZATION WHOSE BOUNDARIES INCLUDE A VMU ELIGIBLE PROPERTY.

This request for zoning/rezoning will be reviewed and acted upon at two public hearings: First, before the Planning Commission and then before the City Council. After a public hearing, the Planning Commission reviews and evaluates City staff recommendation and public input and then sends its own recommendation on the proposed VMU land use regulations to the City Council. Meeting dates and locations are shown on this notice.

If you have any questions concerning this notice, please contact the City of Austin Neighborhood Planning and Zoning Department at the number shown on the first page. If you would like to express your support or opposition to this request, you may do so in several ways:

Agenda Item

PLANNING COMMISSION HEARING

DATE: November 13, 2007

TIME: 6:00 P.M.

**LOCATION: City Hall, Rm. 1002, Council Chambers
301 W. 2nd Street, Austin**

CITY COUNCIL HEARING

DATE: November 29, 2007

TIME: 4:00 P.M.

**LOCATION: City Hall, Rm. 1002, Council Chambers
301 W. 2nd Street, Austin**

For questions regarding the proposed application of Vertical Mixed Use (VMU) regulations in the Bouldin Creek Neighborhood Planning Area, please call Melissa Laursen at (512) 974-7226 or email at: melissa.laursen@ci.austin.tx.us. Si Ud Necesita información en Español, favor de llamar a Andrew Holubeck al (512) 974-2054. Office hours are 8:00 AM to 5:00 PM Monday through Friday. Please be sure to refer to the File Number on the first page when you call. See attached sheets for more information.

Subject: VMU hearing tonight

Hello Melissa,

My name is Jennifer Huth, and I called you last week re: the Bouldin Creek VMU zoning application (file #: C14-2007-0220). I was planning on attending the hearing tonight, but I am unfortunately unable to attend.

You said that I could email you with any concerns if I wasn't able to attend, so I will pass this on:

I would like to go on record as saying that I am opposed to the VMU zoning for Tract #101 in the Bouldin Creek zone as I believe it has the potential to create a substantial negative impact on the homes which border this tract. I live at 1000 Daniel Dr. and my property abutts Tract #101 in the Bouldin Creek VMU zone. Tract 101 is a relatively narrow slice of property that already comes very close to our property (we overlook the roof of Vinnie's Italian Cafe). Under the VMU zoning, it appears that a larger building could possibly be built on this property, negatively impacting our property, which we purchased before VMU zoning was even being discussed. The revised setbacks would allow for a buliding that I fear will loom over our back yard and decrease the value of our home significantly.

Thanks for taking the time to answer my questions the other day, and thanks for bringing this concern into account during the hearing tonight.

Jennifer Huth

If you have any questions concerning this notice, please contact the City of Austin Neighborhood Planning and Zoning Department at the number shown on the first page. If you would like to express your support or opposition to this request, you may do so in several ways:

I strongly object to implementation of VMU land use due to the following:

It will lead to already crowded conditions.

No room for homeowners to park near their homes.

Too many strangers in the neighborhood and they do not hide their total disregard for the privacy of the homeowners.

It is Easy for criminals to "hide" in the crowd.

There are narrow roads and the School for the Deaf is nearby.

Cars cannot see to pull out into the road from driveways.

Debris from activities held on So. Congress

such as South by Southwest, First Thursdays, and weekends.

Found vomit, clothing, and needles on the other side of the yard which presents a health issue for people that live in the area and are forced to dispense of these items.

It is not a good environment for children to grow up in. There is no playground and they could not play outside because there are too many people around. It would not be safe and the children could be exposed to people who are drunk, and may not be in control of their behaviour. "Leslie" was caught relieving himself between 2 parked cars by the side of our house in the middle of the day. It was disgusting and I can only imagine what a child may think of that.

When I mention SOCO, people go "Oh, there!. It is known for a place to Go to have a good time, but not to live there because of what does go on there.

For this reason, people will not stay there long and there will be a constant Turnover. These living conditions will be aimed for a particular group of the Population.

5% of the units will be for affordable housing – come on!!!
